True or False?

- The first humans were hunter-gatherers and collected wild plants, hunted animals and fished.
- Cats were the first animals to be tamed by early humans as they were cute.
- Controlling fire was a huge step forward for humans as they could cook food, keep warm and scare off predators.
- Stone, wood and bone were used to make early tools.
- The end of the last Ice age was in 55BC.
- Experts believe that Stonehenge was either a type of calendar or an ancient burial ground.
- Rock art was used to decorate rocks to make them look good.
- The very first wheels were used as Potters wheels.
- The first human footprints found in Britain were from 800,000BC and they showed that humans wore shoes.
- Before coins were used as payment people gave away goods or services for free.

Match the definition!
